## Corp#011361

---

### Experience

7/9/2000

- joined HMC and worked at Medical Record

2003

- went to College of North Atlantic (CNAQ) and graduated on 2006 as a computer programmer.

2006

- joined HICT Department

2014 until now 2024

- joined Finance Department
- When I joined HMC, I worked hard through my responsibilities that were assigned to me, as I worked in several areas including the following:
- Part of implementation and automatization between HMC and PHCCs through medicom.
- An experienced with board understanding of corporate implementation environment needs and requirements. A fast learner who is capable of adopting new implementing techniques. Recognized by trainees and managers as an accomplished and professional user relation coordinator. Adept at conveying even the technical and complex information to users at all levels. Keep up to date with changes in technology through continuing education and training.

Recently 2020 graduated from CCQ with a bachelor's degree in public administration (HR).

- Effective participation the beginning of the lunch of health cards through continuous meetings with stakeholders, whether inside

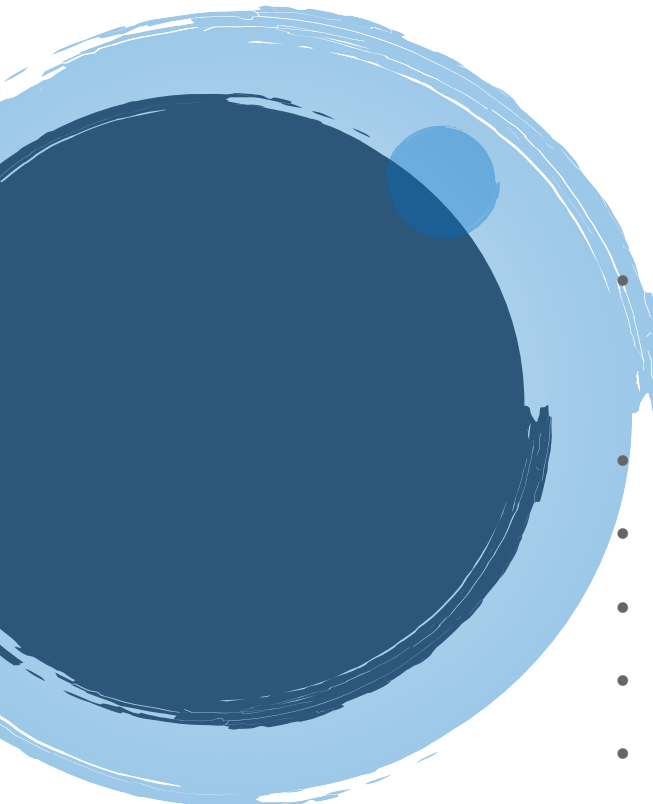

Doha-Qatar

55813362

nalmohd@hamad.qa

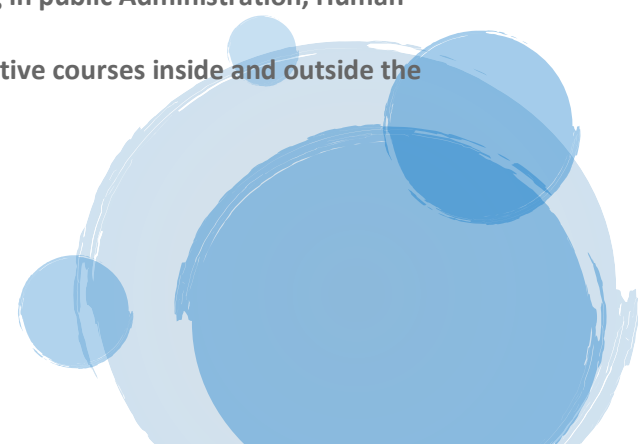

or outside HMC.

- Contribute to directing and cooperating with employees by finding logical solutions in the event that they face any difficulties or problems during work, whether related to the system or related to the organization of workflow in relation to the project to launch the smart health card.
- Participated in the solution group of implementing Cerner project across HMC.
- Supporting Hyperion project and Oracle system forte users of finance Dept.
- Involving with mt team and Finance Department for upgrading Oracle EBIS and part of the steering committee.
- Involving for implementing cloud Oracle system with “HICT, SCM and HR”
- Following my team with creating new reports to support the users within our Department during there day to day work.
- Coordinating between our section and other sections within our department and outside departments across HMC and also out of our organization such as (PHCC, MOF, internal and external auditing.)
- monitor the Upgrade and enhance the budgeting and Oracle system with my team/engaging with the HICT and our top management for upgrading Oracle system from Fusion to Cloud.
- Supervising my team and working on their developments by attending the required courses to improve their skills.
- Contributing as A/manager of finance information system (FIS) at Finance Department as a Section Management for both systems (Oracle and Hyperion).
